

Memo

To: WSU DMC Care Members
From: Benefits & Wellness, Division of Human Resources
Date: 4/19/17
Subject: DMC Care PPO Plan Coverage

You are receiving this memo because you are currently enrolled in the Wayne State University DMC Care medical plan for 2017. WSU recently received notification from DMC Care that it is terminating all DMC Care medical plans as of December 31, 2017. As a result, the WSU DMC Care plan will no longer be offered beyond the 2017 calendar year. Please read the following information concerning future changes to your DMC Care medical plan coverage.

You may have heard that the DMC Care Plan for DMC employees is being replaced by Aetna coverage, effective July 1, 2017. This change to Aetna coverage applies to DMC employees only; it does **not** apply to WSU employees with DMC Care Plan coverage.

Your current DMC Care PPO Plan coverage will remain effective until December 31, 2017.

However, after 2017, DMC Care will no longer be one of WSU's medical carrier choices. You will have an opportunity to make a new medical plan selection during the fall 2017 open enrollment season for the 2018 plan year, which begins in January.

During the next several months, we will continue to provide updated information concerning the transition from DMC Care coverage. If you have any questions about plan coverage, please contact the Member Services department at DMC Care at (800) 543-0161. Please indicate that you are a Wayne State University employee using the group number on your medical ID card.

If you have any other questions, concerns, or need additional information please contact the Division of Human Resources at (313) 577-3000.
