POSITION PURPOSE
Oversees the production of original concept multi-media content for branding, marketing and promoting Wayne State University to internal and external customers. Supports the promotional, alumni and development activities of the schools and colleges in exclusive ways by capturing each school’s unique characteristics and contributions for prospective students and alumni. Responsible for improving operational results by assessing performance; diagnosing problems; and developing and implementing change management programs to increase effectiveness. Manage audio/visual creation and services from scheduling projects to producing video content by providing a full range of desktop publishing, graphics, interactive multimedia and video products.

ESSENTIAL JOB FUNCTIONS
- Supervise, train and provide work direction to videographers and part time staff to ensure job requirements are met and to ensure successful completion of assigned tasks and projects. Oversee the media production process, team workload, and budget management of external resources. Prioritize assigned projects.

- Develop and produce/direct video projects. Set up in-house and on-location video shoots including lighting, shot composition, and audio. Collaborate in the creative design and media production process to effectively communicate the intended message and engage internal stakeholders.

- Responsible for script development, filming, editing, creative production and distribution of material. Review scripts to ensure feasibility and alignment with client's needs. Coordinate props, wardrobe, make up, set design, and the direction of all talent during the production. Provide consultation for shooting, editing, and duplication process, including planning and management of project timelines.

- Direct and produce interactive multi-media products and videos to be seen on a variety of media, including broadcast television, internet, live presentations and html email blasts. Operate audio/video/photo equipment.

- Research, identify, consult and oversee external resources (e.g. video production agency, freelancers, talent, etc.)

- Partner with design, web, and editorial managers to ensure brand is represented consistently across all marketing mediums. Maintain professional relationships and acts as liaison between marketing and school/colleges/divisions. Build cooperation among individuals and departments, sharing information and resources, and working to achieve group goals and outcomes.
- Oversee the acquisition of state-of-the-art production equipment and ensure the proper set-up, use and maintenance of production areas and equipment. Conduct research for production equipment purchases and provide budgetary pricing and purchase recommendations for future needs and advances in technology.

- Maintain a knowledge base of new and emerging technology and develop strategies for implementation of new technology within organization. Research, develop and share new technologies, skills and creative processes with staff, volunteers and community producers.

- Perform related work as assigned.

**ADDITIONAL COMMENTS**

This classification requires a seasoned professional possessing specialized technical knowledge and experience in media production operations. Supervision is exercised over part-time, technician, and intern staff. This position reports to and receives direction from a management level position.
